

THE WORLD'S FIRST FREE AND OPEN SOURCE
INTEGRATED LIBRARY MANAGEMENT SYSTEM

So now you have Koha?

What next?

- Some statistics
- What next for you?
- What next for India?
- What next for Koha?

Software freedom takes work

- 10,015,434 lines of code, (including translations)
- 27,255 commits, averaging 4.6 per day (5959 days)
- 295 Developers
- Over 16 years

What next for me

- Speak up
- Get involved in the community
- Encourage Freedom
- Sponsor developments
- Test, test, test

What next for India

- Localisation
- Translations
- Feedback on features Indian users need
- More patches
- More testers
- Spread the idea of Software Freedom

What next for Koha

- Developer workflow
- Privacy
- Metadata in other formats
- Coral integration
- Optimisation (speeding up Koha)
- Always thinking “Does this feature help end users”

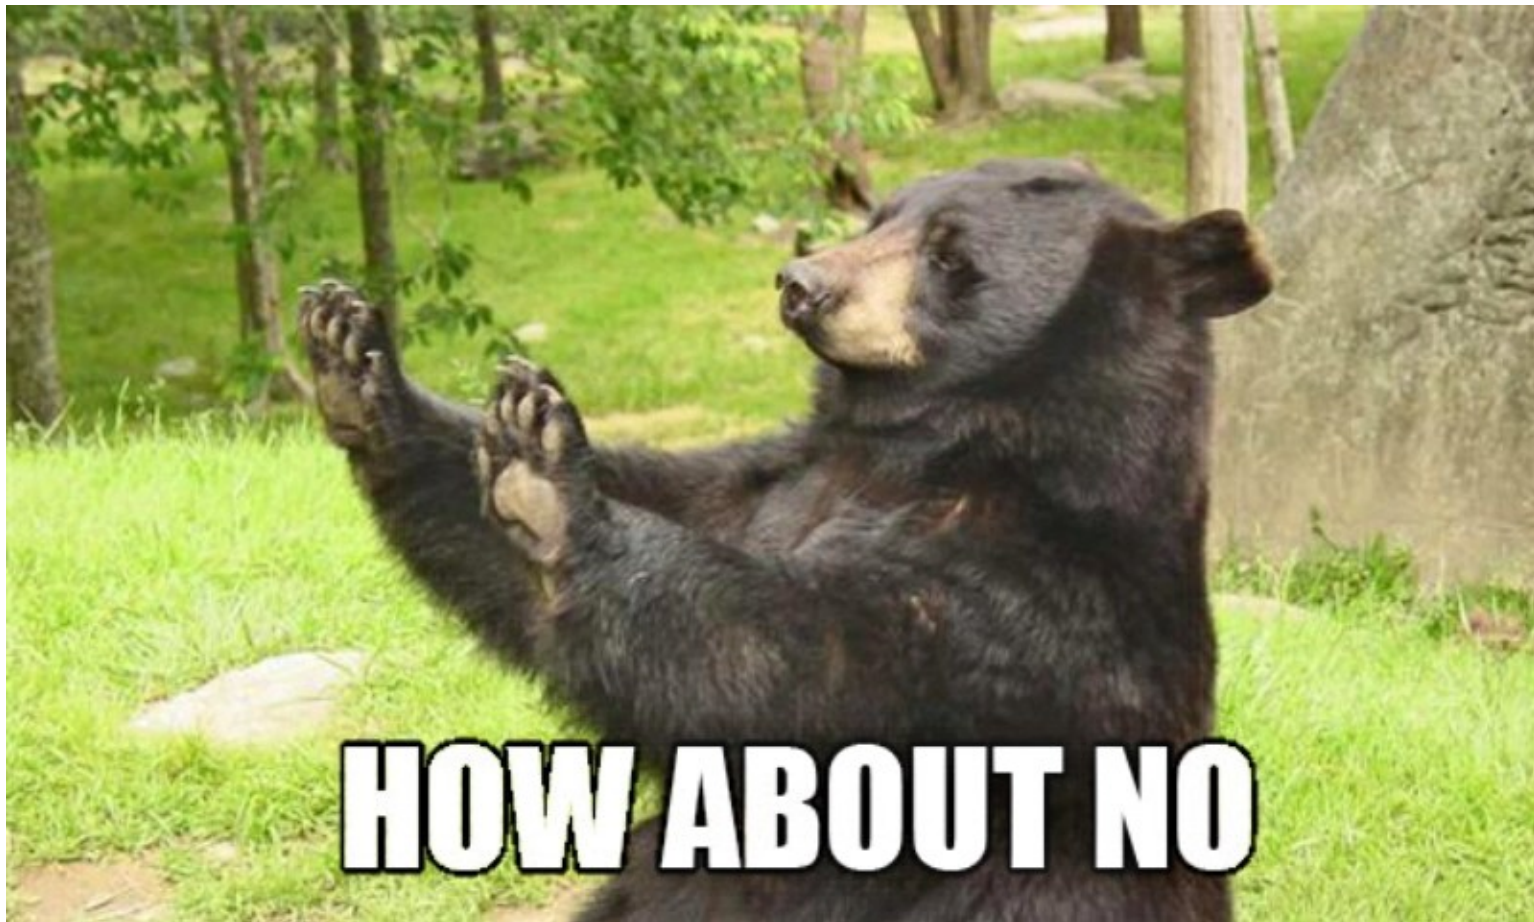

Developer Workflow

- Bug/Enhancement report filed
- Patch submitted
- Tested and Signed off
- Tested by QA
- Pushed by Release Manager
- If bugfix pushed by Release Maintainer
- Released

Privacy

More MARC?

Coral Integration

- Sneak preview of my talk tonight

More speed!

Toshihiro Oimatsu CC-BY

Think about end users
