What is RFID?

What would a library use RFID for?

How does Koha deal with RFID

- Short answer ... It doesn't

- Longer answer ... I'll tell you now

catalyst

What are the challenges

- Cost

- 3rd party vendors …. they like to say "It's not our fault"

- Time

catalyst

Chris's recommendations (follow at your own risk)

- Don't buy an automated return chute

- Make sure your traffic between the self check machine and the server is encrypted

- Mark the tag read only when you have added it to an item

catalyst

Go the mighty All Blacks
